

BUYING VERSUS RENTING

Buying	Renting
You will have a great tax write-off.	You have no tax write-off.
Your housing expense may never go up.	Your rent can go up anytime.
You can use, decorate, make physical changes and enjoy your home as you see fit.	You must get permission to make any changes to your dwelling.
You may build a large equity as your home appreciates in value.	You have no equity to build up. Your money is gone for good.
You are not at the mercy of a landlord.	You can be evicted for being late on one month's rent.
Your house will become a home, not a temporary living situation.	Your living situation is always temporary and usually subject to a 30-day notice.

Do you realize how much you pay in rent over a period of years? In addition to the monthly payment you should figure in the amount you would have accumulated had you invested your payments and earned 10 percent interest. This gives you a total picture of what's happening to your money. The rent you pay adds up to a sizeable sum.

On the chart below, find your per month rental payment and you can determine how much money you are "giving away" in rent and interest over 10, 15, 20 or 30 years—money which could be used to build equity in your own real estate!

Using the charts on the back, you can find out how much house you can afford and what your monthly payments would be if you purchased your own home.

RENT ACCUMULATION TABLE TOTAL RENT PAID IN:

<i>If the MONTHLY Rent is</i>	1 YEAR	2 YEARS	3 YEARS	4 YEARS	5 YEARS	10 YEARS	15 YEARS	20 YEARS
600.00	7,200.00	14,400.00	21,600.00	28,800.00	36,000.00	72,000.00	108,000.00	144,000.00

How Much House Can I Afford?

* The purchase price is calculated assuming a 33% Housing Ratio, Average Consumer Debt, and 20% Down Payment.

Directions: Find Gross Monthly Income in left column. Read across to find Purchase Price under the corresponding Interest rates.

Note: If Down Payment is 10%-take 25% off the Sales Price in the table to the left. If Down Payment is 25%-easy qualifying rules apply.
