Global Domain International In The News

Military Families Support Team - Teaching Self Support for Our Members

Company develops a home based business opportunity for military families and those wishing to help.

"Give a man a fish, and you feed him for a day. Teach a man to fish, and you feed him for life." "The old saying holds true to this day and can be applied to the growing home-based business arena," says Michael Allman, president, Sticky Concepts.

Thanks in part to the new economy and the steady growth of the Internet; there is a great opportunity to build a viable home-based business. Sticky Concepts decided to develop an online business to help military families generate extra monthly revenue.

Military Families Support Team was developed to assist these families in finding a business that is easy to run, inexpensive to start and carries an in

demand product. That product is domain name registrations. Sticky Concepts chose the company Global Domains International as the company to build this support team around.

Currently there are around 60 million domain names registered globally. Industry experts are predicting that in the next ten years, more than 500 Million domain names and web sites will be active annually.

Imagine getting a piece of this multi-billion dollar per year global market, which will include ongoing annual domain renewals and the web based services utilized with each domain name. Most of the good .com "Dot Com" domains are already taken, but the .ws "Web Site" domain registry has millions of the very best names still available, and offers the opportunity for members to benefit from the

enormous residual revenues being generated.

Military Families Support Team (MFST) will have the support and marketing efforts of Sticky Concepts to assist members in growing a home-based business. MFST is conducting a nationwide promotion to enlist military members and all who wish to help support them. Instead of donating a few dollars here and there why not build something that continues to provide revenue monthly to a members business.

Anyone -- anywhere in the world -- can now start a home-based business on the Internet 24 hours a day, 365 days a year and help support a military family.
